

## Greater Detroit Chapter

### VALUED CONSTRUCTION INDUSTRY ADVOCATE:

**Who cares about your business's political rights within the construction industry in Southeast Michigan?**

**The AGC – PAC of Michigan**

**What are the major issues the AGC – PAC of Michigan deals with that impact the construction industry?**

- House & Senate Races
- Industry Taxes
- Liability Language
- MIOSHA Regulations
- Prevailing Wage / Living Wage
- School Construction Legislation

**What's at stake if I don't contribute?**

Higher taxes, more mandates, and more regulation. Electing pro-business lawmakers is at stake. Deciding who makes the decisions is at stake. Other organizations are actively promoting agendas that are detrimental to the construction industry and the pro-business climate in this State. Those organizations are working hard to elect lawmakers who are sympathetic to their agendas. If they are successful, it will impact your bottom line.

### **Bottom Line**

We need your help! As a valued member of the AGC, Greater Detroit Chapter, I urge your support during this critical legislative year in Michigan. By supporting your local Chapter's legislative activities with an AGC – PAC of Michigan donation, you play an integral part in affecting positive public policy changes within the construction industry. While all contributions are appreciated, \$250.00 or more would provide you a 148 Club Membership.

As you may know, 148 Club Members receive numerous benefits including state legislative mailings, receptions, special forums and the opportunity to win a weekend getaway to a Michigan resort of your choice valued at \$1,000. Chapter Board Member Mike Buck of Association Benefits is the sponsor of this great prize.

Please use the enclosed form to make a contribution to the AGC – PAC of Michigan. Every dollar counts. Thanks for your support!

Sincerely,

David B. Hanson  
AGC, Greater Detroit Chapter - PAC Committee Chair  
&  
Senior Vice President – Walbridge Aldinger Company
