*This program is designed to provide information of value to superintendents and foremen, people who aspire to become superintendents and foremen, supervisors, safety directors, training directors, project managers, field engineers, and estimators. Participants will be able to identify, and then avoid, reduce, or eliminate job hazards. In addition, they will become more familiar with required recordkeeping and MIOSHA enforcement procedures. Topics include the scope and application of the OSHA/MIOSHA construction standards. Special emphasis is placed on those areas that are the most hazardous. Upon completion of the course, the student will receive an OSHA construction safety and health 30-hour course completion card.*
